LEGAL DISCLAIMER

We recommend reading this whitepaper before deciding to purchase an LIRACOIN. LIRACOIN will do its best to achieve what is stated on its roadmap, tokenomics, and the like declared in this whitepaper. In the event of unexpected circumstances, LIRACOIN reserves the right, to modify, add, or remove parts of this whitepaper. During those cases, rest assured that our decision will prioritize and will place our community's interest above all. Also, it is the purchaser's responsibility to research the laws binding cryptocurrencies, such as LIRACOIN, in their localities.

LEGAL DISCLAIMER

For any loss or harm originating from the use of this website's material, including written material, links to third-party sites, and data such as quotes and charts as well as buy/sell signals. LIRACOIN token will not be held responsible for any damages. Understand the risks and costs associated with trading assets on the financial market (digital or otherwise). ICOs, in particular, are one of the riskiest investment choices available to investors.

INTRODUCTION

The purpose of LIRACOIN is to pave the way for smart money, pension funds, and more traditional investments to flow into the crypto space by weeding out scam tokens and providing a layer of protection for all crypto holders. Currently, insurance in the crypto world does not exist. If an investor invests in a bad project, whether a scam or poorly run, they have no recourse, no means of restarting their investment to reach financial freedom.

ABOUT US

At the moment we have 500,000,000 tokens and we are designing to fit among all the tokens that are in circulation, LIRACOIN has new proposals in our which must have as an important characteristic that it can be burned, that it can have deflation and that have more chips than the initial one.

Our path will be based on 3 very important parts:

- The first will be the recognition
- The second will be the scope
- The third will be the start of new proposals for our investors.

FAIRER LAUNCH

LIRACOIN tokens are sold to every participant fairly. The tokens are fully available to everyone for purchase at the same price.

Unlike other currencies that only focus on marketing, we created a token that helps merchants and ordinary people to have their money and investments in their wallet regardless of the amount they want to have in a digital way and with the ambition of being able to have the digital world and the virtual world in one click, we are based on the community and for the community, backed by a strong development team.

OUR MISSION

LIRACOIN's mission is to help legitimize the crypto space by adding a layer of protection for investors. In doing so, we seek to draw funds into the crypto space traditionally reserved for the stock market. LIRACOIN was created and designed for the community, our objective is to be number one with the best benefits for our community, it was created by a dynamic and creative team where cryptocurrencies will become a lifestyle for users. We will provide our users with a safe, honest and effective contract to keep them on our platform and for the same users to help us grow.

OUR VISION

LIRACOIN will be the one that will unite technology and people with world economic growth. We will let the rewards, benefits and raffles of our token be ways for our users to increase their profits day after day and that this is the step for recognition among other communities. stakeholders, this gives our token a premium status, providing positive and secure income and our users can have the peace of mind and expected profitability.

“We are and we are here to think about our token community.”

SUSTAINABILITY

We facilitate the transaction and bring them closer to a wider audience. An added benefit of use is that it's completely decentralized, so trading can be done freely across borders.

The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered, and enabled. It has no border so these can be used no matter where you are located globally.

This also has a huge effect on international payment fees. Traditionally international transfers have much higher fees than domestic transfers and payments. International payments and transfers with crypto are the same as domestic.

CORE VALUES

Commitment

We are committed to providing a safe environment for investors to grow their wealth and reach financial freedom.

Ownership

We hold ourselves accountable to the highest standards and always seek to raise the bar and do better every day.

Integrity

We value honesty above all else and promise to always do the right thing for our investors, our clients, and our partners, to achieve mutual success.

Transparency

LIRACOIN will publish all relevant wallet addresses, including management team wallets, locked liquidity in a third party secured locker for 400 days, and communicate all major business decisions with the community.

ECOSYSTEM

1- Cryptosurance

Cryptosurance is the only insurance available to crypto investors to protect against scams and mismanaged projects. Our goal is to provide a safety net to all crypto investors by providing insurance for investors based on their purchased coverage amount. By being a holder of LIRACOIN and purchasing additional LIRACOIN every 30-days investors remain protected. We have designed our payment structure to encourage dollar-cost averaging and contribute to LIRACOIN's price stability. Unlike other insurance your money goes back into your own wallet as additional LiraCoin and appreciates with the rest of your holdings.

2- HODLvesting

BUSD rewards generated by the team wallet and a portion of all transactions are used to invest in real world assets and businesses, with 30% of profits going to the Moon-Shot feature, and the remaining 70% accumulating for the next investment. The purpose of this structure is to reward our holders by appreciating the value of the tokens, while simultaneously creating a foundational business structure modeled off Berkshire Hathaway's conglomerate business structure.

3- Coin Risk Rating (CRR)

LIRACOIN will provide a running list of projects evaluated using our proprietary analysis. We will assign each project a risk value of "Low", "Medium", or "High". We recommend everyone reference the list prior to making any crypto purchase.
